

## SPECS AND INSTALL INSTRUCTIONS

### Square Expanded Metal Picnic Table with Bench Seats

SKU:

---

46" CF-8NVLR

#### Product maintenance

Inspect all hardware and fasteners, regularly check that all nuts and bolts are secure. Periodically examine for any signs of vandalism on any of your products thermoplastic surfaces. If any thermoplastic surface is vandalized by spray paint, simply take a rag and a aerosol can of WD40 ® and wipe the spray paint off. If the thermoplastic surface has any cuts simply take an industrial heat gun to the affected area. For regular cleaning use soap and water.

#### Thermoplastic Coating

Our outdoor furniture is covered in a copolymer-based thermoplastic powder coating. Thermoplastic is environmentally safe, the coating will never fade, crack, peel, warp, or discolor for the life of the product. Thermoplastic has the best adhesion rate of any other process. This keeps the metal base free of any corrosion possibilities. Thermoplastic is applied at a thickness of 25-30 mills. This allows maximum protection with the best possible surface. Thermoplastic can be easily repaired. Cuts are repaired by heating the affected area with an industrial heat gun. The thermoplastic will rebound itself. The properties of thermoplastic also make spray painting difficult for vandals. Simply wash product with a standard industrial cleaner.

#### Specifications
