

SPECS AND INSTALL INSTRUCTIONS

Round Expanded Metal Commercial Picnic Table

SKU:

46" CF-C9VVR

Product maintenance

Inspect all hardware and fasteners, regularly check that all nuts and bolts are secure. Periodically examine for any signs of vandalism on any of your products thermoplastic surfaces. If any thermoplastic surface is vandalized by spray paint, simply take a rag and an aerosol can of WD40® and wipe the spray paint off. If the thermoplastic surface has any cuts simply take an industrial heat gun to the affected area. For regular cleaning use soap and water.

Thermoplastic Coating

Our outdoor furniture is covered in a copolymer-based thermoplastic powder coating. Thermoplastic is environmentally safe, the coating will never fade, crack, peel, warp, or discolor for the life of the product. Thermoplastic has the best adhesion rate of any other process. This keeps the metal base free of any corrosion possibilities. Thermoplastic is applied at a thickness of 25-30 mills. This allows maximum protection with the best possible surface. Thermoplastic can be easily repaired. Cuts are repaired by heating the affected area with an industrial heat gun. The thermoplastic will rebound itself. The properties of thermoplastic also make spray painting difficult for vandals. Simply wash product with a standard industrial cleaner.

Specifications

Assembly Instructions

46" Round Expanded Metal Picnic Table

46" Round Perforated Metal Picnic Table

Note: Work 1 one side at a time.

Do not tightly secure bolts until product is fully assembled.

Step 1:

Check that all hardware, legs, seats, and table top are accounted for. Total parts for the assembly of one 46" Round Metal Picnic table are eight legs, four (ADA three) seats, one brace rod, twenty eight (ADA twenty four) 5/16" Hex Head Bolts, nuts, and fifty six (ADA forty eight) washers.

Step 2:

Assembly of all 46" round picnic tables are the same (ADA assembly are also the same.) Start with flipping the table top upside down then take one leg at a time and attach it to the top. Attach the legs in a clock wise /counter direction. With out tightening any of the bolts, take the center brace and bolt it to the corresponding corners for added security. Now flip the table upright and add the seats for your model of table.

(To prevent damage to your bench place a blanket underneath the bench.)

Step 3:

After all bolts are in place and the bench is on its feet, continue by making sure the table is level before tightening all of the bolts in the same progression that you started with. After all bolts are tightened enjoy your new table.
