

LEED CERTIFICATION: TECHNICAL LETTER

This document verifies that Jayhawk Plastics' Site Furnishings may enable project teams to earn credits for the LEED® Certification of Commercial New Construction (NC), Homes (H) and Existing Buildings (EB). The following chart describes the potentially applicable credit criteria.

Table with 3 columns: LEED System, Applicable Credit, LEED Point Value. Rows include NC (MR 4.1: Recycled Content, 1), H (MR 2: Preferable Products, .5), and EB (MR 3: Alternative Materials, 1).

- 1. Jayhawk products contain 100% post-consumer recycled content. Therefore, the full value of Jayhawk materials is applicable to Materials and Resources Credit 4.1: Recycled Content.
2. Because of the high percentage of recycled content in this product, if constructing a new home, you can use Jayhawk products to earn credit for Materials and Resources Credit 2: Environmentally Preferable Products (LEED for Homes).
3. Because of the high percentage of recycled content in this product, if you are working on a major renovation project for an existing commercial structure then using this product can help you comply with Materials and Resources Credit 3: Sustainable Purchasing - Facilities Alterations and Additions (LEED EBOM).

This product has been reviewed by a third party LEED Accredited Professional. If you have any inquiries about how this product helps projects qualify for LEED Certification credits then please feel free to contact us using the information below.

Sincerely,
